# UCC COFFEE MUSEUM Floor Guide & Exhibitions

As you go up the escalator, you can follow the gentle slope down and visit Exhibition Rooms 1 through 7 in order. You can learn about coffee from its origins to its future through various hands-on activities. We hope you enjoy exploring the deep world of coffee.

## Origin

We explore the legends surrounding the discovery of coffee and the rich coffee culture of Ethiopia, the birthplace of coffee. Here, you will trace the history of how coffee spread across the globe and became an essential part of people's daily lives.

## Cultivation

Coffee is born from nature's blessings and the dedication of its growers. Here, you can feel the essence of a coffee estate through immersive displays, such as a recreation of Brazil's famous red soil. This area offers a rare glimpse into coffee as an agricultural crop—a side we seldom see in our daily lives.

## Extraction

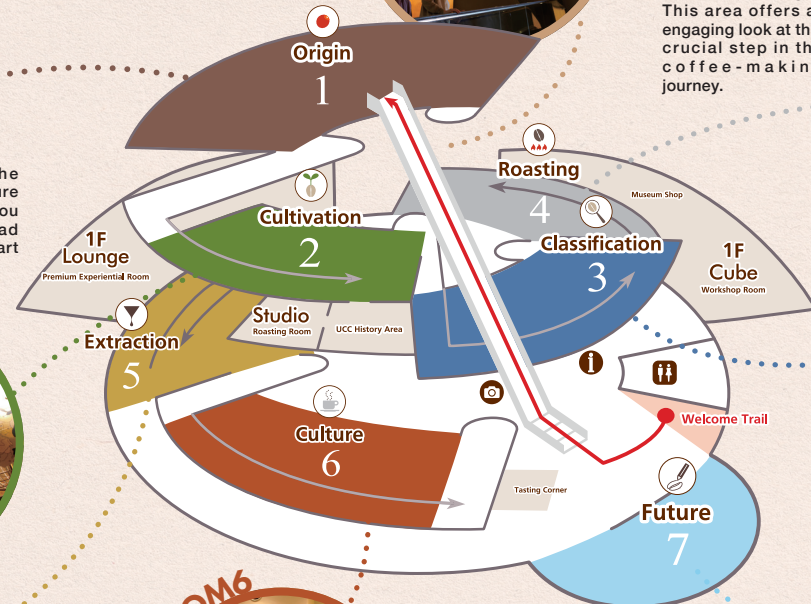

The art of brewing coffee has evolved remarkably across different eras and regions. Here, you can trace this fascinating history through our collection of rare and vintage brewing equipment. This area is also packed with practical tips for making the perfect cup and popular cafe-style recipes—filling you with inspiration that will make you look forward to your next coffee time.

## Atrium

In the atrium, artwork made from hand-made Japanese washi paper infused with coffee grounds welcomes guests.

"KAFUU" by Eriko Horiki

## Roasting

Coffee transformed dramatically when it first met fire. Roasting is the essential process that unlocks coffee's distinct flavors and rich aromas, turning raw beans into a beloved beverage. This area offers an engaging look at this crucial step in the coffee-making journey.

## Classification

Focusing on Brazil, the world's largest coffee producer, this area invites you into the world of "Coffee Classification." Before reaching your cup, coffee undergoes rigorous and repeated quality checks in producing countries. Here, you will experience the unwavering passion and professional expertise essential to protecting the true flavor of coffee.

## Culture

Loved through the ages, coffee has inspired stamps, music, and novels. This inspiring area showcases the rich lifestyle of coffee culture, alongside precious coffee cups from the world-renowned porcelain makers. It is a truly captivating collection that delights the eyes and sparks the imagination.

## Future

To ensure we can all enjoy delicious coffee for generations to come, UCC is dedicated to research that expands the possibilities of coffee. From the perspectives of sustainability and science, this area introduces our diverse initiatives that are shaping the future of coffee.

## Experience Programs

We offer experience programs for all generations to see, touch, and taste coffee.
